

iKala “GCP.expert” Certified As Google Cloud Trainers and Infrastructure Specialization Partner

iKala Press Release - October, 2018 Taipei

A Google Cloud Premier Partner and Technology Partner, iKala “GCP.expert” has been providing AI and cloud solutions to more than 200 corporate customers in APAC. Today iKala announced it has been authorized as the only partner with Google Cloud trainers in Greater China region, as well as certified Infrastructure Specialization partner. iKala “GCP.expert” will provide an even complete offering of “AI + training + infrastructure” services to customers.

Demonstration of Cloud-based AI Solutions at Google Cloud Summit HK 2018

On October 9-10th, “GCP.expert” had attended Google Cloud Summit Hong Kong 2018 as the

first step of paving its way to the great APAC market. During the cloud summit, “GCP.expert” had showcased an eye-catching AI chatbot solution and an AutoML vision demo that achieves amazing accuracy of classifying doggy pictures. “GCP.expert” will continue to provide a cornucopia of AI solutions at scale to its customers.

The Only Partner with Authorized Trainers in the Greater China Region

Authorized as the only partner with Google Cloud trainers in the Greater China region, “GCP.expert” has held over 85 English and mandarin training sessions focused on cloud infrastructure building and data analytics, and has accumulated more than 2,000 participants in pan Asia including Beijing. “GCP.expert” will continue to host a series of GCP training programs and workshops in Q4 2018 with global partners like Trainocate, a well-known Google-authorized training institution in pan Asia. More information can be found on “GCP.expert” website - <https://gcp.expert/en/>

Seamless technical support and services

iKala’s business partners include prominent startups such as Rayark Inc., KKBOX, and VPON. And they are running large-scale systems on Google Cloud with the help of iKala “GCP.expert”. “GCP.expert” helps us deploy thousands of virtual machines in one single region within minutes, and saves us 50% operational costs compared to other cloud vendors. Moreover, “GCP.expert” provides in-time consulting services and training programs which benefit us a lot,” said Hung-Yi Chen, Head of System Infrastructure, KKBOX. As iKala is expanding its services overseas, “GCP.expert” will continue to cooperate with Google to serve customers from different industries in Hong Kong, Macau and greater China markets.
